The largest professionally-managed demand signal driving the global economy.
1 purchaser = 100 consumers
Purchasing Organizations

…are uniquely positioned to demand transparency into the upstream and downstream impacts of goods and services.

…are capable of incorporating sustainability criteria into purchasing decisions at a scale that can shift markets.
Fragmented demand signal...
...emanating from silo-ed efforts...
...causes confusion for suppliers, slowing market transformation.

MARKET CLARITY
Multi-sector guidance enables purchasers and suppliers in any sector to speak a common language.

COMPETITIVE ADVANTAGE
Suppliers compete to help purchasers improve their performance. ("I can get you a point.")

NEW NORMAL
Market clarity and competition results in improved products and services becoming available for everyone in the marketplace.

Partnerships...
Three types

**Strategic Partners**
have significant staff-level collaboration with SPLC’s program development.

**Summit Partners**
receive benefits for their staff and members in exchange for promoting SPLC’s Summit.

**Network Partners**
connect *existing* communities of practice with SPLC guidance so that actors in a wide variety of industry and professional networks can use SPLC guidance to send transformative signals to their suppliers.

Example partner activities: co-host webinars with SPLC, help SPLC create education modules that qualify for partner’s CEUs, host workshops/presentations on SPLC guidance, participate in the Summit Partnership program, facilitate interaction between their members and SPLC’s community of practice, etc.
